

# XL EXTENDED LIFE™

the most durable mattress made with exceptional comfort

## EXL 4000

### Enhanced Superior High Resilience Foam

Provides additional highly resilient firmness and support.

### Contour Flex Pro with Excellent Edge™ Foam Encasement

Individually encased coils are designed to flex and conform independently of each other to reduce motion transfer and help eliminate partner sleeping disturbance. Each coil is electronically tempered to improve resiliency for better performance and longer mattress life.

### eXtended Life Foundation

With 3x the amount of wood beams, an additional center rail and increased edge support, this high quality wood design surpasses any other conventional wood-build foundation.
